LA 92 Riots

Creative Director: Michelle Kim
Designer: Lily

- Overall, I like the way it looks and the way the title and navigation bar stay in place while you scroll
- Make it take up less space, smaller top and bottom margin to navigation bar
- Maybe include a little bit of text about the riots on the landing page so there's context and a warning for disturbing images (if you end up putting in graphic images)
  - If not, the text below is fine (you can use your own judgment)
- Take out the [43] and other referencing notes because it's distracting and it will be available on the Wikipedia page
- Video—maybe do news footage if it makes sense in the flow of the copy, but don't do the original graphic footage
  - Do images of the footage of the incident
- Resources page
  - Include the sources you used besides Wikipedia (the sites I linked) and other resources that people can look into to learn more (the documentary, books, movie etc.)
